

BONDDESK - AN INDUSTRY-LEADING FIXED INCOME TRADING PLATFORM

Financial Consultants can use BondDesk to manage - and grow - their fixed income business

BondDesk is a versatile online trading platform that offers one of the largest number of live offerings on the web.

- Quick Picks** - Users can create and display their own personal search queries on live executable bonds and select them with one click. They can also receive automated e-mails every morning describing the items that match the designated criteria for that day.
- Search Offerings** - Allows users to set criteria for bonds within a certain security type or among all taxable products.
- Online Trading** - Allows Financial Consultants to buy, sell, enter bids/offers wanted and view all order activity.
- Bond Calculator** - Allows users to perform various calculations and explore scenarios without initiating an order.
- Bond Ladders** - Offers users the ability to model the anticipated yield distribution of specific bonds and create informative and professional reports for customers.
- Offer Sheets** - Users can create a client friendly version of offers with commission removed.
